Drawings

1. The drawings are objected to because the margins are too small in Figure 3 and the figure number identifiers are handwritten. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: The Examiner would like to note that in the Office Action mailed 25 March 2004, Kahle et al., U.S. Patent Number 6,662,294 (published 09 December 2003) was noted as having similar claims to those filed by the Applicants' on 19 April 2001. Applicants' response, filed 23 August 2004 stated "Kahle requires changing the opcodes of the instructions. The present invention has no such requirement (Amendment dated 23 August 2004 page 7, paragraph 1)." Applicants' conclusion

Art Unit: 2183

about Kahle requiring changing the opcodes is supported in Kahle in column 2, lines 36-55; column 4, lines 56-60; column 5, lines 6-17; and column 6, lines 34-37. Applicants' current claims filed 09 May 2006 in an After Final Amendment and entered on 16 June 2006 with the filing of an Request for Continued Examination, clearly recites, taking claim 1 as exemplary, "...detecting the beginning and the end of a branch domain of original machine code **based solely on said original machine code...**[highlights added by the Examiner]". This is clearly different from Kahle's invention, which requires changing the instructions, which includes the opcodes, before identifying the beginning and end of a branch domain, since Applicants' invention identifies the beginning and end of a branch domain based only on the original machine code, e.g. based only on the original, unaltered instructions. Therefore, Applicants' claimed invention is different from Kahle's.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Aimee J. Li whose telephone number is (571) 272-4169. The examiner can normally be reached on M-T 7:00am-4:30pm.

5. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Eddie Chan can be reached on (571) 272-4162. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
